SOFT PLUG® SILICONE Punctum Plugs

The distinctive low profile cap combined with a softer, more flexible silicone maximizes patient comfort. The inserter provides greater control and eliminates accidental release of the plug. Soft Plug silicone plugs are removable.

Available sterile, preloaded on inserter in 2-pack or 6-pack dispenser box.

Also available in sterile, non-loaded Economy Pack: Includes 2 inserters and 10 trays of 2 plugs each. Trays equipped with an alignment slot for quick loading.

Lacrimal Irrigation Kit

REF #	Description
4003-IK	Lacrimal Irrigation Kit Sterile Contents: One 3ml syringe and one 25g x 1-1/8" lacrimal cannula, curved, open end. For use with BSS to irrigate the Form Fit plug through the nasal passage if removal becomes necessary. 10 per box

FORM FIT®

Hydrogel Intracanalicular Plug

Form Fit® comes sterile, preloaded in an inserter. The polyimide sheath is inserted into the punctum and the inserter handle compressed to expel the hydrogel plug. Once inserted the plug increases in size as it hydrates until it completely fills the vertical canalicular cavity to form a perfect fit.

INSERTION

IMMEDIATELY AFTER INSERTION

10 MINUTES AFTER INSERTION

PRODUCT FEATURES

- * In its dry state, the plug is 0.3mm in diameter by 3.0 mm long and requires no special storage
- * In the hydrated state, the plug is a soft, pliable, gelatinous material
- * The need for punctal measurement has been eliminated
- * Hydrogel is biocompatible and causes no foreign body sensation

REF #	Description	Qty per Box
6303	Form Fit® Hydrogel Plugs	10 plugs
6303-T	Form Fit® Hydrogel Plugs	2 plugs
